- Additional LPS (Latch Door System)

Datalive Videomatics

- The Datalive Videomatics system utilises three live view cameras which continuously record and save key events when triggered.

Reversing Camera Kit

- Digital colour mirror monitor
- High level brake light camera
- 10m extension cable

Inclinometer

- It supports vehicle inclination, pitch angle, longitude and latitude coordinates, satellite positioning, altitude, speed display, supply voltage, time display, driving distance, over speed alarm and etc.

Mechanical Bonnet Lock

- Prevents bonnet access ,even if the cab has been broken into
- 1,000,000 key combinations
- Plate guards protect underneath of vehicle

Electronic Activated Bond Lock

- Installed inside the load area for optimum protection, capable of withstanding a tensile load of more than 2.0-tonnes.
- The Electronic Activated BondLock guards against the new generation of vehicle hacking and keyless theft techniques.

Integrated Cargo Alarm

- The Integrated Cargo Alarm system provides a clear deterrent to criminals looking to gain access to the Cargo. This system looks to combat the criminal trend of "peel and steal" theft.
