

Owner Driver Vehicle Security Options

UK's No.1 Owner Driver's Supplier for DPD!

Mechanical Bonnet Lock

- Prevents bonnet access, even if the cab has been broken into
- 1,000,000 key combinations
- Plate guards protect underneath of vehicle

Reversing Camera Kit

- 4 pin aviation connection
- Adjustable ball camera
- Integration loom to OEM media screen

Inclinometer

- It supports vehicle inclination, pitch angle, longitude and latitude coordinates, satellite positioning, altitude, speed display, supply voltage, time display, driving distance, over speed alarm and etc.

Electronic Cargo Lock

- Fits all vans
- Side and rear door protection
- Auto-locking every time
- Unlock with secure dallas key
- Emergency access built in

Latch Protection

- Prevents criminals from drilling holes into the body of the vehicle to access and then disable the latch mechanism.
- Reinforced Manganese plate is fitted to where the Latch Mechanism is most vulnerable.

Electronic Activated Bond Lock

- Installed inside the load area for optimum protection, capable of withstanding a tensile load of more than 2.0-tonnes.
- The Electronic Activated BondLock guards against the new generation of vehicle hacking and keyless theft techniques.

Reverse Alarm Night Silent

- Single bolt fixing
- CE & EMC marked
- Durable for water & vibration
- 3rd lead (night silent) mutes the unit when side lights in use

Datalive Videomatics

- The Datalive Videomatics system utilises three live view cameras which continuously record and save key events when triggered.

Anti Drill Plates with LPS

- 2 part kit - drill shield and handle protector
- Manganese high tempered steel deflection plates
- Bonnet release guard and rear door hinge shear bolts
- Additional LPS (Latch Door System)

Integrated Cargo Alarm

The Integrated Cargo Alarm system provides a clear deterrent to criminals looking to gain access to the Cargo. This system looks to combat the criminal trend of "peel and steal" theft.

Saturn CT60 Charging Cradle

- Fixed, hardwired installation
- Device specific voltage charge

Datalive Telematics

- Track and trace
- Engine codes DTC
- Efficiency reporting
